

## Asset Manager (m/f/x)

CIC EWEF B.V. is now looking for an ambitious **Asset Manager (m/f/x)** for its wind farm projects in the Netherlands.

CIC EWEF's current portfolio contains an onshore wind farm near the IJsselmeer in the north-east of the province of Noord-Holland. The wind project is part of the wind farm Wieringermeer and consists of two parts: The existing wind farm with 8 Vestas V126 wind turbines and a total capacity of 30.4 MW became operational in 2019. The second part consists of a total of 9 prototype sites with a fully developed infrastructure and a total capacity of about 35 MW, which are leased to manufacturers to test their prototypes in order to obtain type certificates.

CIC EWEF B.V. is a dutch subsidiary of **connected infrastructure capital GmbH (CIC)**. The Hamburg-based company CIC specialises in structured financing solutions in the renewable energy sector and concentrates on the acquisition of high-yield, approved wind farm projects in European markets. The founding partners of CIC already implemented more than 900 MW of renewable energy projects in the USA, France, Denmark and Germany.

### Your responsibilities:

- Coordination of site activities
- Being a contact person towards land-owners and authorities
- Management of obligations under existing permits
- Monitoring existing permits and steering (re-)permitting processes as needed
- Procurement and management of service contracts (e.g. turbine maintenance, inspections, repair work, site maintenance, maintenance of electrical installations)
- Management and control of QEHS plan and ensure fulfilment of mandatory obligations
- Participating and supporting potential contract and / or claim negotiations
- Management of warranty matters and repairs
- Reporting to CIC EWEF Management and its shareholders

### Your profile:

- Academic degree in the field of (industrial) engineering (e.g. Renewable Energies or Construction) or in the field of business administration with technical affinity
- At least 3 years working experience in the area of renewable energies
- Experience with construction works and project management tasks
- Solution-oriented, reliable and independent working style
- High level of self-motivation and a positive attitude
- Competent use of MS office applications
- Very good command of English and Dutch language skills

### What we offer:

- A diverse scope of tasks due to prototypes and commercial wind turbine operations and the associated broad scope of tasks and responsibilities to be covered
- An open-minded and highly motivated team
- Contribution of own ideas and suggestions for improvements are highly welcome
- Competitive compensation and possibilities for professional and personal growth

### We are looking forward to hearing from you!
